This Coat-of-Arms is the Brosius armorial of original grant, dating from the first Crusade, AD 1096, in which it was first borne by a Sir Knight Crusader Johan Von Brosius
DESCENDANTS OF
HENRY BROSIUS
Born - -1768 Died 12-28-1816
AND
MARY ROBERTS
Born 10- -1771 Died 10-1-1833
Traditions is that Henry

Tradition is that Henry Brosius came to this country with his mother an older brother and a younger sister at an uncertain date in the latter part of the eighteenth century.

The mother married George Utz who must have served in the Revolutionary War as his estate showed he held a patent to 200 acres of land on the west side of the Allegheny River in Westmoreland County granted to him in 1786 for military service. He kept a store in Philadelphia and during the Yellow Fever Epidemic in 1793 both he and his wife died and the estate was settled by Henry. In the Letters of Administration he is described as "Henry Brosius weaver of Moorland Township, Montgomery County. His accounts show that he took care of his parents in their last sickness. He gave bond with the sum of £1000 and his final account rendered Dec. 17th. 1806 shows there was a balance of $784.66 to be disposed of as the Laws directs. After his marriage to Mary Roberts in 1793 he finally bought the farm near Paggs Mill Church which remained in the family until 19

The older brother is supposed to have gone to the part of Pennsylvania and may have been the progenitor of numerous Brosius family about Stanbury.

The sister is reputed to have married a sea captain gone to Connecticut and a descendant - Fred Bar and his wife visited relatives in Chester County attended the family gathering held at Atlantic 1893 for the purpose of organizing to try to secure the Fortune supposed to be in Europe awaiting claim

This Chart is compiled by Lewis W. Brosius R.D.3 Del. Ave. Wilmington, Del. 7th. 1911 from such data as he has been able to collect with the help of several members of the family, and is printed to preserve it and with the hope that an interest will be aroused that will enable the collection of such fuller data as will warrant putting it in book form.
